COMPOUNDING AND CREDITING - Interest will be compounded monthly and will be credited to your account monthly. If you close your account before interest is credited, you will receive the accrued interest.

MINIMUM BALANCE REQUIREMENTS - You must deposit \$ 50.00 to open this account.

Monthly Minimum Balance fee of \$15.00. To avoid this fee:

- Maintain an average balance of \$1,500.00, OR
- Maintain a combined average balance of \$15,000.00 in related Tri City National Bank checking, savings, and/or money market account(s). Combined accounts must be linked to qualify, OR

DORMANT/INACTIVE ACCOUNT INFORMATION – A dormant fee of \$10.00 per month will be imposed when the account is inactive for more than 365 calendar days and the average balance (ledger) for the statement cycle falls below \$200.00.

PROCESSING ORDER - All credit transactions and deposits are processed first. Next, all withdrawal transactions, including Debit Card purchases, ATM withdrawals, checks, ACH withdrawals and in-person withdrawals are processed. The processing order of these items is important because if there is not enough money in the account to pay for the items in the order they are processed in accordance with the processing order, there may be an overdraft on your account which may result in overdraft or non-sufficient funds fees or an increase in the amount of these fees.

NSF AND OVERDRAFT INFORMATION - NSF or Overdrafts occur when transactions created by check, in-person withdrawals, ATM withdrawals, or other electronic means post to the account and cause the available balance on your account to become a negative number. Available Balance is the amount of your current account balance that is available for withdrawal or payment of items. Your Available Balance does not include checks you deposit or cashed that may have a hold placed on it or any holds that are placed when debit card transactions are authorized but have not posted to your account.

We reserve the right to pay or return an item and may charge you a fee as listed in our fee schedule.

BALANCE COMPUTATION METHOD - We use the daily balance method to calculate interest on your account. This method applies a daily periodic rate to the principal in the account each day.

ACCRUAL ON NONCASH DEPOSITS - Interest begins to accrue no later than the business day we receive credit for the deposit of noncash items (for example, checks).

TRANSACTION LIMITATIONS - See Fees and Charges section below.
